Assessment of a suspected VHF patient

Patient Data		
Surname: BAPTIST	Forenames: ALBRECHT	Date of Admission: 19 SEPT 07 Time: 0800
Address: 5 rue Bernard Palissy, Saint Germain des Prés		Phone: 33 1 43 20 36
Nationality: FRENCH	Passport-number: FR123456789	
Date of birth: 21/04/1975	Date of onset of Illness: 14 SEPT 07	

Physician: Dr Benoît Arthault Address: 8bis rue Quinault St Germain en Laye	Phone: 33 1 30 61 25 Fax: Email:
--------------------------------------------------------------------------------------------------------	-----------------------------------------------

Please tick the relevant answers to the following questions (and give additional information)

1. Did the patient have contact (body fluids/tissue) with a confirmed or suspected VHF case less than 21 days before onset?

☒ No ☐ Unknown ☐ Yes, w. suspected case ☐ Yes, w. confirmed case

If yes, specify: _____

☐ Patient ☐ Dead Body ☐ Body fluids/ tissue Date of exposure: _____

Other relevant contact information: _____

2. Was the patient in a VHF endemic area less than 21 days before onset?

☐ No ☐ Unknown ☒ Yes ☐ if yes, specify: _____

Country: **IVORY COAST** Place(s) of residence: **TAI NATIONAL PARC**

Date of staying: from **16/07/07** to **18/09/07**

Staying in rural areas : ☐ No ☒ Yes

Traveling means: ☐ Holiday ☒ Business ☐ Other: _____

Accommodation: ☐ Hotel ☒ Camping ☐ Other: **SAFARI LODGE**

Outdoor activity: ☐ No ☒ Yes Type of outdoor activities: **Research/ Game Walks**

21 September 2007

Dear Jacques

Notification of confirmed case of Ebola

Further to our recent telephone conversations I am writing to notify you that the suspected Viral Haemorrhagic Fever case admitted to the High Security Infectious Disease Unit on Wednesday (after becoming ill on a flight from the Ivory Coast) has just been confirmed by the Institute Pasteur as testing positive for the Ebola virus.

As you will know the patient died yesterday of intractable multi-organ failure with internal and external bleeding and the body has been moved to the mortuary. I will notify all affected healthcare and mortuary staff of the confirmed diagnosis.

As per our discussions, I have attached the patient assessment which was completed yesterday. If you require any further information please do not hesitate to contact me.

Kind regards

Dr Philippe Bossi

INJECT 2

Exercise Note: To be given to the WHO Player at 0905 and a copy to be given to the French Player for information

Scenario Date & Time: 21 September 2007 at 0905

Telephone call initiated by French Authorities (National IHR Contact Point) to WHO IHR Contact Point at 0905

‘Good morning, I have just been advised by colleagues at the Hospital Pitié-Salpêtrière that the suspected case of Viral Haemorrhagic Fever, notified to you under the IHR yesterday, has just been confirmed by the Institute Pasteur as the Ebola virus.

As you know the patient was admitted to the Hospital Pitié-Salpêtrière on Wednesday after becoming ill on an flight from the Ivory Coast and died yesterday of intractable multi-organ failure with internal and external bleeding.

Colleagues at Hospital Pitié-Salpêtrière are notifying all affected healthcare and mortuary staff of the confirmed diagnosis.

I am particularly concerned that European and other International travelers who were on the same flight as the patient may be at risk. I have therefore put a message on the EWRS.

I am awaiting receipt of further information from the High Security Infectious Disease Unit at Hospital Pitié-Salpêtrière including the patient assessment and passengers information from Air France and will give you an update on the situation soon’.

BLOCK ONE

This block will last from 0900 to 1030

INJECT 2a

Exercise Note: To be given to the WHO Player at 0905

Scenario Date & Time: 21 September 2007 at 0905

Current Situation

There are **NO** reports of Ebola haemorrhagic fever in the Ivory Coast.

Initial telephone conversations with WHO colleagues in Abidjan indicate that this is likely to be an isolated case and could be linked to chimpanzees.

(One human case of Ebola haemorrhagic fever of the Cote d'Ivoire subtype and several cases in chimpanzees were confirmed in Côte d'Ivoire in November 1994).

There is a confirmed outbreak of Ebola haemorrhagic fever in the province of Kasai Occidental in the Democratic Republic of Congo. See attached press statement.

Background Information

The following information, available from the WHO website, is attached:

- WHO Country Information on the Ivory Coast
- History of Disease Outbreak in the Ivory Coast
- Core Health Indicators
- Background from UNICEF

The following guidelines are attached:

- WHO recommended Guidelines for Epidemic Preparedness and Response: Ebola Haemorrhagic Fever (EHF)
- Factsheet No 103 – Ebola Haemorrhagic Fever

MESSAGE

To all Member States

We have this morning received a confirmation of Ebola Viral Haemorrhagic Fever in a (now deceased) patient who was admitted to hospital in Paris on Wednesday after becoming ill on a flight from the Ivory Coast. The confirmation comes from the Institute Pasteur through PCR diagnostics.

We are particularly concerned that European and other International travelers who were on the same flight as the patient may be at risk. The flight information is included below. We are awaiting passenger information from Air France.

<u>18 Sept</u>			
Depart	Abidjan	AF703	2155

<u>19 Sept</u>			
Arrive	Paris (Charles de Gaulle)	AF703	0620

As required by the International Health Regulations we have informed the WHO. We are conducting a full investigation into the case and will provide updates when further information is available.

Background Information on Albrecht Baptist's movements in the Ivory Coast

Albrecht Baptist is a French scientist working on a project with the Department of Primatology at the Max Planck Institute for Evolutionary Anthropology (Leipzig).

He has just completed a 2-month research mission on behalf of the Wild Chimpanzee Foundation in the Tai National Parc, part of the West African jungle, studying Chimpanzees and their behaviour.

The research included conducting regular field visits to observe chimpanzees in their natural habitat with Albrecht camping overnight in the jungle on regular occasions. During this time he fed and helped in the rehabilitation of an abandoned full grown female chimpanzee.

21 September 2007

Dear Jacques

Summary of Passenger Locator Card information

As promised, please find by fax, the passenger information we have been able to obtain from flight AF703 which departed Abidjan on 18 Sept (2155) and arrived into Paris (Charles de Gaulle) on 19 Sept at 0620.

The Airbus A330 -200 was full with 219 passengers and 11 crew onboard the aircraft. We received 175 completed passenger locator cards which are attached.

We have been able to obtain some further information of 11 people from the 'Flying Blue' Frequent Flyer information. We have limited information for the remaining 33 passengers. What information we have is attached.

We are attempting to contact and interview all 11 crew and hope to have further information to you as soon as possible. ***What specific health advice and reassurances should we give to the crew?***

I have informed colleagues in Corporate Services of the situation and they are concerned that the media or general public may soon hear about this situation. ***What are your recommendations about informing the media/public? As in the XDR TB case in May 2007, we could put a link to your advice on our website.***

Exercise – Exercise – Exercise

Passenger Information obtained from Frequent Flyer database, where no passenger locator card was completed

Update from Air France

Chief Medical Officer
Air France

Jacques Chemardin
Pharmacien biologiste des hôpitaux
Département des urgences sanitaires
Direction générale de la santé
14, avenue Duquesne
75007 PARIS

21 September 2007

Dear Jacques

Further to our recent conversations we have conducted telephone interviews with 9 of the 11 the crew who were onboard the flight from the Ivory Coast. It appears that following the breakfast service, the patient was standing in a queue for the toilets at the back of the plane when he vomited violently. The vomit landed on a number of people in the queue (including a member of the cabin crew who was passing the queue at the time) and on some nearby passengers in their seats. The patient was seen to lean on a seat to steady himself.

The vomit appeared to have some blood in it and a call was made over the PA system for a doctor. A physician came to assist and the patient was moved to the galley with the assistance of a senior flight attendant. While in the galley the patient had a rigor and vomited again, collapsing on the floor and losing control of his bowels, discharging a quantity of dark watery stool. The area was cleaned up and the patient was made as comfortable as possible with pillows and a blanket before his arrival into Paris where an ambulance met the aircraft.

We have not yet been able to talk to the crew member who was passing the queue as she is on duty on a flight to Turkey. The senior flight attendant who assisted the physician with the patient is in Tokyo. Both members of staff have been asked to contact us as soon as possible.

I shall be in contact as soon as I have further information.

Message ID: 20070921FR0001

Name: EWRS France Ministère de la Santé
Institution: Département des urgences sanitaires – Direction Générale de la Santé
Date: 21/09/2007 at 1800

Message Content: Potential Exposure of Additional Passengers

MESSAGE

Since the EWRS alert of earlier today, we have received more information from the airline. The infectious passenger was in a queue for the bathrooms at the time of illness and not in his seat. There is therefore a risk that additional passengers may have been exposed or contaminated.

BLOCK FOUR

This block will last from 1330 to 1500

INJECT 7a

Exercise Note: To be given to the Belgian Player at 1330

Scenario Date & Time: 23 September 2007

Travel History of Belgian National – Dr Adriaen Scherer18 September

- Dr Scherer boards Air France flight AF703 in Abidjan for Paris.
- He is a physician and is seated in Business Class
- He has just completed a week long mission to the WHO Country Office in Abidjan

19 September

- Following the in-flight breakfast, Dr Scherer responds to a request to assist an ill passenger who is vomiting violently
- The patient is moved to the galley where Dr Scherer stays for the remainder of the journey
- During this time the patient vomits again and loses control of his bowels
- Once Dr Scherer has stabilised the patient with the use of the onboard paramedic kit, he cleans the area and makes the passenger comfortable
- On arrival in Paris, after ensuring the patient is handed over to local health authorities, Dr Scherer catches a train to Brussels
- The rest of the day is spent at home catching up on emails

20 September

- Dr Scherer has a day off
- He goes to a lunch time movie
- He meets 4 friends at a local bar to watch his favourite team play football.

21 September

- On arrival at his office, Dr Scherer sees 6 patients in the morning session
- The afternoon is spent at home doing paperwork
- During the evening Dr Scherer feels nauseous so has a light supper and retires to bed early.
- During the night Dr Scherer feels worse with symptoms including vomiting and diarrhoea.

22 September

- Dr Scherer receives a call from the Belgian Authorities about the positive testing of Ebola in the patient from flight from the Ivory Coast.
- Following the advice given, Dr Scherer checks himself into his local hospital where he is isolated and kept under observation.

INJECT 7b

Exercise Note: To be given to the Czech Republic Player at 1330

Scenario Date & Time: 23 September 2007

Travel History of Czech National – Magdalena Smidova18 September

- Following some last minute shopping in Abidjan, Magdalena Smidova boards Air France flight AF703 for Paris on route to her home in Prague.
- She is travelling with her husband and is seated in the centre aisle at the back of the plane
- They have just spent a 2 week honeymoon on safari at d'Abokouamekro Game Reserve

19 September

- Following the in-flight breakfast, Magdalena joins the queue for the toilet at the back of the plane
- A man in front of her vomits violently, some of which lands on Magdalena's sleeve and in her hair.
- Magdalena returns to her husband and then returns to the bathroom to clean herself up as best she can.
- Magdalena and her husband catch their connecting Air France flight to Prague
- Magdalena's parents collect them from the airport and drive them to their home in Branik.

20 September

- During the day the couple go to the supermarket to buy groceries and get their holiday photographs developed
- They spend the evening listening to classical music at the Rudolfinum Concert Hall

21 September

- The couple spend the day preparing for a dinner party to be hosted at their house where they will announce Magdalena's pregnancy.
- Shortly before the guests arrive Magdalena begins to feel unwell (lethargic, muscle ache, sore throat)
- Three couples attend the dinner (the neighbours from the adjacent apartments and a couple from the Church) which lasts until about midnight

22 September

- Magdalena has developed a fever, concerned her husband calls the doctor out.
- Following a thorough examination the Doctor admits Magdalena to her local hospital for tests. Shortly after her arrival the Doctor and Magdalena are informed by Czech Authorities of the man from the flight testing positive for Ebola.
- Magdalena undergoes a series of tests

23 September

- Initial test results indicate Malaria.

Scenario Date & Time: 23 September 2007

Travel History of French Nationals – Evette Sangier and Fabien Gautier**Evette Sangier**18 September

- Evette Sangier is an air stewardess for Air France looking after Economy Class passengers
- She boards the Air France flight AF703 in Abidjan for Paris.

19 September

- Following the in-flight breakfast, Evette collects a duty free item for a colleague in First Class
- On route to First class Evette squeezes past the queue for the toilet at the point when a passenger vomits violently.
- Vomit lands on Evette's face and uniform which she attempts to clean off in the galley
- On arrival in Paris, Evette takes the RER to her home in Neuilly sur Seine, Levallois.
- After catching up on some sleep, she visits her family (mother, father and brother) who live around the corner
- On her way home she takes her soiled uniform to the dry cleaners

20 September

- Evette travels by RER to central Paris and spends the day with her best friend at a health spa at La Villa Maillot
- She returns home by RER

21 September

- Evette travels by RER to Charles de Gaulle for a flight to Istanbul
- On arrival in Istanbul, Evette travels by shuttle bus with 9 crew to the Hilton Istanbul
- Feeling tired, Evette remains in the hotel and retires to bed early
- She has a restless nights sleep.

22 September

- Evette joins her colleagues for a light lunch in the hotel.
- She feels dehydrated with a sore throat, so drinks plenty of water and retires to her hotel room for a quick nap before returning to the airport
- A telephone message from Air France Occupational Health asking Evette to contact them is left with ground staff at Istanbul. Evette does not get the message.
- Evette boards the 1845 flight to Charles de Gaulle, returning to her home late evening.

Exercise – Exercise – Exercise

- During a fitful night, Evette develops a high temperature and begins vomiting

23 September

- Evette's housemate finds her drenched in sweat, rather sleepy and a little confused about the day and time.
- An ambulance is called and Evette is taken to her local hospital.
- After examination Evette is admitted to a communicable disease ward
- The attending physician (aware of Evette's job) suspects a tropical disease and investigating further contacts Air France who advise of the positive Ebola case.

Fabien Gautier

18 September

- Fabien Gautier is a senior flight attendant for Air France responsible for the comfort and safety of all Economy Class passengers
- He boards the Air France flight AF703 in Abidjan for Paris.

19 September

- Following the in-flight breakfast, Fabien is in the galley
- He hears a cry from the queue outside the toilets and sees a passenger vomiting violently
- Fabien rushes to assist the man, but noticing some blood in the vomit calls for a Doctor.
- The passenger is moved to the galley where he vomits again and loses control of his bowels
- Fabien liaises with the Pilot and assists in cleaning the area and makes the passenger comfortable
- On arrival in Paris, after ensuring the patient is handed over to local health authorities, Fabien takes the RER to his home in Boulogne-Billancourt, Issy
- In the evening Fabien meets up with 8 friends for a birthday celebration at a local restaurant

20 September

- Having swapped a shift with a colleague, Fabien returns to Charles de Gaulle to join his next flight leaving for Tokyo at 1315.

21 September

- On arrival in Tokyo, Fabien travels with the rest of the 12 crew to the Narita Excel Hotel.
- Fabien spends the afternoon at a special exhibition of Japanese folding screens taking place at the Suntory Museum of Art
- He joins the crew for dinner (sushi) at the hotel followed by cocktails in the bar

22 September

- Fabien does some last minute shopping.
- He boards the 1210 flight to Charles de Gaulle, returning to his home via RER late afternoon.
- At home there is a message for Fabien to contact Air France, but not wanting to be bothered with work matters, Fabien decides to call them back the next day.

23 September

- Fabien awakes in the early hours of the morning feeling nauseous with a severe headache and dry mouth
- He thinks it may be jetlag or the sushi he ate in Tokyo, so drinks plenty of water and goes back to sleep
- He is woken by a call from Air France Occupational Health who advise him of the positive Ebola case.

Travel History of British National – Lauren Jones

18 September

- Following a productive meeting in Abidjan, Lauren Jones, a Financial Consultant , boards the Air France flight AF703 for Paris
- She has an aisle seat near the toilets
- Lauren recently returned to work from long term sickness absence

19 September

- Following the in-flight breakfast, a queue has formed near the toilets and people are leaning on the back of Lauren's seat
- A man in the queue suddenly vomits violently with some of it transferred to Lauren's shoulder and business suit.
- After helping to steady the ill man, Lauren walks down the cabin to an empty bathroom where she attempts to clean herself up.
- In the absence of an available flight attendant, the passenger sitting next to Lauren has kindly wiped her seat
- On arrival in Paris, Lauren waits in the baggage lounge for over an hour, but her luggage does not appear.
- Late for her breakfast meeting, Lauren rushes to the Sheraton Paris Airport hotel when she spends the morning with 10 colleagues from the Paris office.
- Lauren returns to the airport for her connection to London Heathrow
- She takes the London Underground to Waterloo station to catch a train to Guildford, Surrey
- Due to flooding, many trains have been cancelled, so Lauren spends 3 hours at the station in a coffee shop before catching the train to Guildford

20 September

- Lauren is back in the City by 9am for the start of a 2-day meeting with her project team of 4 people.
- She leaves the office at 1800, taking the train home

21 September

- The second day of the project team meeting ends with drinks in a local bar.
- Lauren takes the train home.

22 September

- Lauren is woken by the delivery of her lost luggage.
- The bag appears to have been opened, so she takes all the clothes, including the soiled suit to the Laundromat.

Exercise – Exercise – Exercise

- As the day progresses Lauren develops a severe headache, feels lethargic and weak
- During the night she has a high temperature and begins vomiting.
- Alarmed that her old illness may be recurring she calls for an ambulance to take her to hospital

23 September

- Lauren remains under observation in her local hospital and undergoes extensive tests.
- British Authorities, who have been struggling to contact Lauren, manage to speak to the physician and advise him of the positive Ebola case.

Travel History of Bulgarian National – Grigor Petrov

18 September

- Grigor Petrov boards Air France flight AF703 in Abidjan for Paris.
- He is a freelance Operations Manager seated near the back of the plane
- He has just completed a one week assignment for a large shipping company

19 September

- Following the in-flight breakfast, Grigor joins the queue for the toilet at the back of the plane
- A man behind him vomits violently, some of which lands on Grigor's shirt and trousers.
- After helping to steady the ill man, Grigor finds an empty bathroom where he attempts to clean herself up
- On arrival at Charles de Gaulle, Grigor makes his way to the Business Class Lounge awaiting his onward connection to Sofia, Bulgaria.
- He changes out of his suit into clean clothes and disposes of the suit in a bin in the Gent's toilets.
- He notices some dry material in his hair; having no time to shower, he attempts to clean it with disposable towels and cologne.
- On arrival in Sofia, Grigor collects his car from the long term car park and drives home to Vitosha.
- He has a quiet evening with his wife, son and 2 daughters and a teenage friend of the oldest daughter.

20 September

- Grigor spends the day in his office catching up on emails and telephone messages
- He spends the evening with his family at home.

21 to 22 September

- Grigor and his family spend the next two days rock-climbing and caving in nearby mountains.
- During this time Bulgarian Authorities attempt to contact Grigor without success.

23 September

- Grigor's muscles are aching, so he has a lazy day in bed
- By the evening he has begun to develop a fever
- During the night he begins vomiting
- Concerned, his wife calls the Doctor, who after visiting admits him to the local hospital for observation.

Travel History of German National – Radulf Swartzkopf18 September

- Radulf Swartzkopf boards Air France flight AF703 in Abidjan for Paris.
- He is a journalist and is seated in Economy Class
- He has just completed a week long assignment for an international new agency in Abidjan where he is compiling a report on the ongoing conflict.

19 September

- After the breakfast meal there is a queue for the toilets and Radulf keeps getting bumped by the people
- As he turns to the queue a man vomits violently, with some of the vomit landing on Radulf's face and arm.
- Radulf wipes his face and arm with a napkin and then goes to the bathroom to wash his face.
- He is quite surprised by what has happened and records a few notes in a book.
- On arrival in Paris, Radulf catches the next available flight to Frankfurt.
- He takes a taxi straight to the Frankfurt office of the news agency where he spends the rest of the day writing a mission report before sharing a car home with a colleague.

20 September

- Radulf spends all day in the office to complete his report and update his boss on his visit to the Ivory Coast.
- He works late and then cycles home to Karben.
- Radulf spends the evening on the internet chatting to his friends on 'facebook'.

21 September

- Radulf has the day off as he and 3 friends are off on a long weekend to cycle the scenic routes near Dresden.
- After a six hour train journey the friends arrive in Dresden and after checking into their bed and breakfast 'Pension Käubler' they head to Bierhaus Dampfschiff for the rest of the evening

22 September

- After rising early Radulf and his friends spend the day cycling the scenic routes around Dresden returning to the 'pension' late afternoon.
- The friends spend the evening in local beer houses before retiring to bed around midnight.

23 September

Exercise – Exercise – Exercise

- On waking in the morning Radulf has muscle ache, a headache and feels nauseas. He puts this down to the pressure of work and the exertion of the cycling the day before.
- Radulf tries to get some sleep on the long train journey home, but feels progressively worse.
- On arrival at home late evening, Radulf picks up his voicemail which includes a message from local health authorities asking him to contact them urgently. He returns the call and hears about the infectious Ebola passenger.
- Radulf becomes very worried and so immediately checks himself into his local hospital.

NEWSFEED

Potential infectious disease outbreak on plane

Sun 23 Sept, 2007

Paris – News is emerging today of a number of people admitted to hospitals across Europe with unexplained illnesses. There is widespread speculation that these people are linked to the initial deadly Ebola case identified on the Ivory Coast flight which landed in Paris on Friday.

INJECT 8

Exercise Note: To be given to all players at 1430

Scenario Date & Time: 01 October

Epilogue

Ebola VHF has spread to a number of European countries following contact with an infectious passenger on a flight from the Ivory Coast.

The flight was carrying the symptomatic person and 228 other persons (including crew). A global contact tracing activity was undertaken in an attempt to trace all passengers on board the flight and to prevent the spread of further disease.

To date laboratory-confirmed Ebola VHF has developed in 7 individuals (including the index case) with 2 deaths (index case + 1) attributed to complications from Ebola. The remaining 5 individuals are all in intensive care and are in life threatening or critical conditions. 1 passenger, who was admitted to hospital with suspected Ebola, was diagnosed with malaria.

It is believed that the index case contracted Ebola from infected chimpanzees in the Tai National Parc, Ivory Coast. Illness in other passengers was related to exposure to body fluids and the physical proximity to the index patient.

The French Health Authorities (where the index case was first reported), the World Health Organization and the European Centre for Disease Prevention and Control continue to lead intense activities, with support from many institutions across Europe.

All countries remain on high alert with health authorities continuing to trace possible tertiary cases.

There have been no new cases in the last 7 days.
