

Resources:

We've prepared some tools for you to use when writing and reviewing abstracts. We've also provided some links to existing resources that will reinforce and elaborate on the concepts explored within this abstract writing course.

Links:

- 20 tips and 20 traps:
 - ✓ The 20 tips checklists document (*located: Module 03- Writing an abstract-> Additional resources*)
 - ✓ The 20 errors checklist document (*located: Module 03- Writing an abstract-> Additional resources*)
 - ✓ Quiz (to practice your knowledge of the 20 tips and traps) (*located: Module 03- Writing an abstract-> Additional resources*)
- Writing an abstract (3 Part Presentation) (*located: Module 03- Writing an abstract-> Additional resources*)
- Guide for preparation and review of abstracts for scientific conferences within EPIET, EPIET-associated programmes [EAPs] and EUPHEM. (*located: Additional resources-> Additional resources*)
- MEDLINE / PubMed database (LINK: <http://www.ncbi.nlm.nih.gov/pubmed>)
- Receiving feedback –a useful tool evaluate the quality of the feedback you receive (*located: Module 05- The gift of feedback-> Additional resources*)
- Technical references:
 - ✓ Anatomy of a Good Abstract presentation (details how the Technical reference should be used, how to recognise the 10 steps of an outbreak) (*located: Module 03- Writing an abstract-> Additional resources*)
 - ✓ EPIET toolbox –checklists for field assignments (LINK:<https://wiki.ecdc.europa.eu/training/epiet/w/wiki/959.aspx>)
 - ✓ ESCAIDE 2014: Guidelines for abstract submission, review and selection (May 2014). (*located: Module 03- Writing an abstract-> Additional resources*)
